

Trixi™ 2011

Trixi™ is Selecta's mixed rooted liner program available in a 72-cell or 50-cell standard tray. We are combining three different varieties per liner, using one crop or mixing different crops. The liners are pinched and ready to grow for a quick finish. The 72-cell format keeps shipping affordable but is still large enough for a great energy-charged liner. The 50-cell format gives you a beefier liner for a quicker finish. Choose from 17 different recipes or mix your own by combining different Trixi recipes together. Be creative!

Trixi™ Facts:

- Complementing varieties in proven mixes.
- 17 recipes to choose from.
- Quick-to-finish energy-charged pinched liner.
- Labor savings due to ease of handling.
- Use in baskets, containers, pots, and gallons.
- Add center pieces to create unlimited mixes.

TrixiLiner™ are rooted in 72 count 30 mm ellepots (left) and 50 count 40 mm ellepots (right) cell trays. Cuttings are pinched and treated with PGR's.

Trixi offers mixes for different seasons and holidays. Blueberry Parfait and Melon Sorbet are great for Mother's Day, Ayers Rock and Caribbean Cocktail are great for fall, and Red-White-Blue works great for national holidays. All are great to welcome spring with colors consumers are craving after a long winter.
